Benefits of Attending

- You will learn how crime and fear of crime are fundamental drivers to sustainability, place making, and business.
- How design and management of the urban form interrelate with the environment.
- What Crime Prevention Through Environmental Design and management involves.
- How crime and fear of crime impact neighbourhood/ business
- How to identify a problem.
- The legislation and best practice that supports the use of CPTED.
- The key principles and techniques of Crime Prevention through Environmental Design.
- Designing in CPTED in new or existing project/s.
- How environmental measures can reduce the fear of crime.
- How to utilize lessons from case studies and projects.
- Partnership approaches to problems and opportunities for networking and sharing best practice.
- Access to 'networks' of other CPTED international practitioners.

Who will benefit?

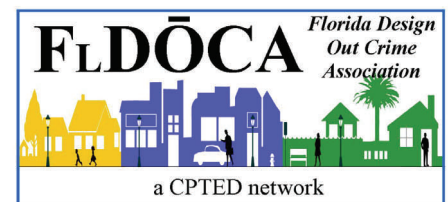

The conference will be beneficial to those involved in design, architecture, public transportation, neighbourhood involvement, parking lots, high rises, and regeneration. It will also benefit law enforcement, security and risk managers, facilities manager, developers, planners, architects, and others looking to reduce crime and the fear of crime in their environment.

Speakers

Dr. Tim Pascoe

Griffin Research and Consultancy Limited , UK

Director of the Griffin Research and Consultancy Limited is an international leading community safety and crime prevention Company. Tim has published over 100 journal, magazine articles and reports and presents and lectures all over the world.

He is a founder-member and current Chairman of DOCA-UK (the Designing out Crime Association) and an International Director of the ICA (the International CPTED Association). He is a member of the Commonwealth Club and the Cranfield Management Association. He sits on various UK and European security standards boards, the Editorial Board of the Security Journal and the Advisory Board of the Design against Crime Centre, University of the Arts London. Tim specializes in carrying out qualitative and quantitative research, investigating community safety issues, security problems and providing crime prevention measures. He has led numerous projects that have investigated all aspects of crime prevention and community safety. In addition to being an experienced project manager and a 'leader' in the Designing and Managing out Crime' field particular specialist areas include:

Crime Opportunity Profiling Surveys

Crime Prevention Through Environmental Design
Consultation

Interviewing ranging from open to structured interviews

Survey designs

Art Hushen

National Institute of Crime Prevention, US

President of the NICP, Inc. a Global Training Company. His CPTED experience is in the application of CPTED strategies in overlay districts, parks and trails, and community redevelopment. His experience also includes CPTED applications in downtown guidelines, public housing, high rises, critical infrastructure, and schools. Art also applies CPTED strategies in land use development, zoning codes, lighting and security guidelines, public transportation, and roadway design. He has conducted numerous CPTED site reviews and has worked with several cities in implementing their CPTED program.

Art is an instructor for the Florida Attorney General's Office where he assisted in the creation of the Advanced CPTED program, the State standards and testing for the Florida CPTED Designation, and the Making Schools Safe by Design program. He specializes in Basic and Advanced CPTED, CPTED in Schools, and CPTED & Critical Infrastructure. He is also an instructor for the American Crime Prevention Institute and Fox Valley College in Basic and Advanced CPTED Training. Art holds a Bachelor of Arts degree in Criminology from the University of South Florida.

Art is a Director of the United States Designing Out Crime Association and a Board member of the International Society of Crime Prevention Practitioners. He is Past Chairman of the Florida Design Out Crime Association (FLDOCA), and Past Board Member of the International CPTED Association (ICA). He is a member of the American Planning Association (APA) and the American Society for Industrial Security (ASIS). He has conducted seminars and training through out the United States and has been a guest speaker in the United Kingdom, Canada, South America, and Europe.

Speakers

Terry Cocks

Metropolitan Police, UK

Originally from Belfast, Northern Ireland, Terry has been a police officer for 29 years . Having worked on Drug and Crime Squads Terry saw the light and for the last 13 years he has been a Crime Prevention Design Adviser with the Metropolitan Police in Camden, London.

He has published papers on the design of hospitals and hotels, and is the co-creator of the methodology for completing visual audits known as “COPS”. Terry has presented at conferences in UK, Europe and North America. Terry is a great fan of live music and all types of sports so long as they do not involve horses.

He also does believe in speaker profiles that allow for poetic license but not waffle on ad nauseam about how wonderful he is compared to the others.

Terry is a;

- Director and General Secretary of DOCA and a former Director of the ICA (International CPTED Association).

- Chairman of CEN TC 325 WG3 - Prevention of crime by urban planning and building design.

- Member of British Standards Institute Committee 562 - Security of Buildings

- A member of the Advisory panel at “Design against Crime” at Central St Martins College.

In 2009 Terry received an award from his peers within DOCA for “An Outstanding Contribution to Designing out Crime”.

Tom Hushen

Texas Regional Advisory Council on Trauma, US

Tom currently serves as the Administrator for the Regional Advisory Council on Trauma. He is in charge of administering federal grants to all hospitals from Brownsville to Laredo, Texas. He also works with the Hospitals, Emergency Medical Services, State and Federal agencies on evacuation protocols. He served as the Emergency Management Coordinator and County Fire Marshall for Cameron County, Texas, reporting to the county's highest elected official. Tom has worked to improve the security of county buildings and develop a countywide, public safety communications system. He has led efforts to include small cities and rural communities in regional emergency plans, and has overseen the formation of hazardous response teams at each end of the county.

During his fifteen-year career with the City of Harlingen, Texas Police Department, Tom was responsible for a number of programs and initiatives, including work as a Drug Abuse Resistance Education (DARE) officer and development of security plans for the local school district. He served as an instructor at the Lower Rio Grande Valley Regional Police Academy, teaching cadets Community Oriented Police strategies.

A long-time advocate of community policing, Tom served as the director of the Citizens Police Academy and was the supervisor of the Community Oriented Police Division. He used CPTED strategies in the revitalization of the Downtown "Placita" District, advised city council on the construction of city ordinances including the city's traffic flow regulation, and initiated a revitalization of the neighbourhood watch program.

Tom retired from the Harlingen Police Department as a Lieutenant, having attained recognition as a Master Peace Officer. He continues to serve as an instructor for the Texas Commission on Law Enforcement Officer Standards and Education (TCLEOSE) and served as a City Commissioner for the City of Harlingen. He is currently the Vice-President of the NICP, Inc.
